SUMMARY

HSE Professional with 7+ years of experience leading multi sector HSE operation, spanning the pharmaceutical, FMCG, chemical, and hospital industries, I have demonstrated success in various high-stakes environments. My achievements include HSE and sustainability projects such as flammable material storage container installation, qualified for certificate of work environment measurement, ecovadis 2024 bronze medal, REC claims using biomass energy and building strength certificate claim for solar cell installation, led certification of QHSE System based on ISO 9001, 14001 & 45001, reducing monthly hazardous waste cost budget by 0,32%, alongside managing & optimizing budget for HSE. I have managed, improved, and developed HSE management systems within factories and hospitals, successfully led general affair and engineering teams during a six-month interim period, and achieved zero accident milestones in consecutive years across multiple companies. Passionately sharing insights about HSE awareness, I am very goal-oriented, focusing on exceeding targets through strong cohesive teamwork. Additionally, I have adeptly handled complex regulatory compliance, securing critical waste management licenses for prominent pharmaceutical firms.

EDUCATION

Universitas Diponegoro | Bachelor of Public Health - Majoring in OSH | GPA: 3.53/4.00

2013 - 2017

Organizational Activities: Ikatan Alumni K3 FKM Undip - Member (2018-present) | Badan Eksekutif Mahasiswa Universitas Diponegoro - Senior Staff of Scholarship Division, Student Welfare (2016) | Badan Eksekutif Mahasiswa FKM Undip – Staff & Senior Staff of Student Welfare (2014-2015) Keluarga Mahasiswa Islam FKM Undip - Staff & Senior Staff of Research and Development (2014-2015)

EXPERIENCE

HSE Supervisor | PT. Ikapharmindo Putramas Tbk. | Jakarta, Indonesia

Jul 2025 - Present

- Managed, developed & prepared the implementation and continuous improvement of HSE Management System based on ISO 14001:2015 & 45001:2018, ensuring around 550 employees obtained essential HSE training with several employees have licensed HSE certificates and enhancing factory compliance through policy enforcement and continuous improvement programs.
- Managed HSE compliance for 20+ equipment licensed & 18 personnel certified regarding new test for facilities license & periodic inspection for renewal license of factory operations to sustained operational compliance and enhancement of HSE standards.
- Revamped WWTP installation processes, ensuring compliance with government set wastewater quality standards and implementing daily monitoring and emergency pollution response procedures, mitigating environmental risks.
- Orchestrated over 10 comprehensive HSE training engaging approximately 350 employees on-site, leveraging visual aids and media to bolster HSE protocols and emergency response proficiency.
- Managed and developed of HSE procedures, policies, and guidelines, incorporating government agencies recommendation to ensure stringent implementation across departments, enhancing overall safety and regulatory adherence.
- Managed detailed reports on EHS programs & objectives, conducted risk analyses on changes in systems, workplaces, and chemical handling, and reported hazards and incidents, enhancing risk management framework at company.
- Supervised 15+ projects ranging from routine maintenance to critical infrastructure installations, enforcing strict compliance with HSE standards among all contractors, ensuring all contractors adhered strictly to HSE standards.
- Managed periodic HSE reports and report to government agencies (including P2K3 Online, UKL-UPL, SKL Wasdal, Pesapakawan DLH DKI Jakarta, SIMPEL & SPEED LIMBAH B3), ensuring adherence to EHS regulations.
- Conducted & prepared for PROPER 2025 (Jul 2024 - Jun 2025 period) evaluation report.
- Initiated & led emergency response simulation and Fire Extinguisher & Hydrant training within one month of joining.

QHSE Staff (Section Head Level) | PT. Sewu Sentral Primatama (GGF) | Tangerang, Indonesia

Nov 2024 - Apr 2025

- Managed, analyzed & prepared implementation of OSH Management system based on ISO 45001:2018, enhancing to improve factory compliance and performing with continuous improvements programs to build an OSH culture.
- Initiatively led monthly HSE talk for 100% participants across production, quality, engineering, and warehouse departments covering quality and HSE topics with updates on current conditions to increase safety awareness for employees.
- Managed third-party management programmes related to HSE standards.
- Created, developed and managed 90% HSE Documents (company's HSE policies, manual, procedures, work instruction, forms, and guidelines) according to government agencies recommendation, local regulations, other requirements, and international standards (ISO 14001 and 45001), ensure clear communication across all stakeholders.
- Managed HSE compliance and licenses for 13 units of facilities and equipment in 6 months regarding new testing and periodic inspection of factory operations.

- Supervised execution of pest management programs by third parties in factory.
- Initiated & led for installation of fire alarm system project including smoke detector & heat detector to prevent fire emergency cases in cold-pressure juice factory
- Initiated to creating and planning for external and internal work environmental measurement monitoring programs (physical hazard such as hot & cold work climate, noise, lighting, KUDR, chemical hazard, biological hazard, ergonomic hazard, psychological hazard). collaborated with HR Department for internal work stress assessment (psychological hazard) and counseling programs to all employee referred to local regulation.
- Conducted and led monthly safety internal audit programs.
- Conducted monthly fire extinguisher inspection & weekly first aid box inspection.

HSE Supervisor | FUCHS Indonesia | Bekasi, Indonesia

Dec 2022 - Juli 2024

- Managed implementation of integrated QHSE Management Systems (ISO 9001:2015, 14001:2015, 45001:2018), enhancing factory compliance and zero accidents in 2023 through policy enforcement and continuous improvement programs.
- Orchestrated over 5 comprehensive HSE trainings engaging approximately 92 employees both on-site and online, leveraging visual aids and media to bolster HSE protocols and emergency response proficiency.
- Managed & optimized the HSE budget, allocating funds to critical areas including environmental monitoring, PPE inventory, facility upgrades, HSE facilities Permit & maintenance, achieving significant cost savings & operational efficiency improvements.
- Initiated & led two emergency response simulations and safety drills within ten months of joining, first within two weeks of starting in Dec 2022 and in Oct 2023, significantly enhancing staff readiness and safety awareness across all levels.
- Overhauled Personal Protective Equipment (PPE) management system process, from procurement to distribution, ensuring 100% effective usage and regular updates, leading to the establishment of a robust PPE management system.
- Supervised 20+ projects ranging from routine maintenance to critical infrastructure installations, enforcing strict compliance with HSE standards among all contractors, ensuring all contractors adhered strictly to HSE standards.
- Analyzed environmental initiatives, including the acquisition of a Renewable Energy Certificate (REC), building strength certified claim for installation of solar cells, monitoring of water and electricity consumption & ecovadis annual report (bronze medal in 2024), ensuring sustainability and compliance with quality standards.
- Led thrice-weekly HSE talks for 35+ participants across operation departments, covering safety, health, and environmental topics with updates on current conditions requiring awareness, enhancing company-wide HSE awareness and engagement.
- Represented and spearheaded the company's engagement in internal and external audits, including certification bodies, customers, and government agencies, while coordinating, monitoring, and evaluating audit findings and recommendations.
- Supervise and evaluate implementation of the security team's operational program carried out by third parties.

EHS Supervisor | PT. Pharma Health Care (Combiphar Group) | Depok & Bekasi, Indonesia

Jan 2020 - Nov 2022

- Managed EHS Management System across three factories, overseeing a team including one senior staff & one hazardous waste operator, ensuring all 89 employees obtained essential EHS training with several employees have licensed EHS certificates, & contributing to EHS regulatory compliance rates of 90%.
- Managed internal EHS budget, focusing on OPEX and CAPEX, allocating funds to critical areas such as personnel certification, environmental testing, emergency facilities, and IT support across three sites, achieved a 93% budget realization and reduced costs in hazardous and toxic waste management by 0.32%/month.
- Monitored & ensured renewal of factory facilities compliance and employee certifications as part of the Combiphar group's licensing team, leading to sustained operational compliance and enhancement of EHS standards.
- Managed the development and update of EHS procedures, policies, and guidelines, incorporating government agency recommendations to ensure stringent implementation across departments, enhancing overall safety and regulatory adherence.
- Conducted EHS training and developed promotional media, significantly improving departmental compliance and safety awareness, which directly supported the success and continuous improvement of the EHS program.
- Revamped the Waste Water Treatment Installation processes, ensuring compliance with government-set wastewater quality standards and implementing daily monitoring and emergency pollution response procedures, mitigating environmental risks.
- Prepared detailed reports on EHS programs & objectives, conducted risk analyses on changes in systems, workplaces, and chemical handling, and reported hazards and incidents, enhancing the company's risk management framework.
- Collaborated with quality team to integrate Good Manufacturing Practices (GMP) with the EHS system, participating in inspections and audits to ensure seamless operational compliance and safety.
- Conducted periodic EHS reports (including P2K3, UKL-UPL, RKL-RPL Rinci, SIMPEL & SPEED LIMBAH B3), ensuring adherence to EHS regulations.
- Achieved zero accidents for two consecutive years at PHC Depok site and one year at PHC Cikarang site, and played a key role in developing the EHS management system prior to production at PT Pharma Health Care Cikarang site in 2021.
- Planned and supervised the execution of pest management programs by third parties in the factory, ensuring thorough evaluation and adherence to pest management standards.

- Monitored and ensured the availability of all necessary OHSE supporting facility permits across various hospital departments, playing a pivotal role in maintaining continuous regulatory compliance and preventing operational disruptions.
- Orchestrated comprehensive safety training and awareness programs, conducting safety rounds, talks, inductions, and training for all hospital staff monthly, covering vital topics such as emergency procedures and chemical safety, improving HSE awareness and adherence across all hospital functions.
- Led the implementation of robust risk identification and assessment using HIRADC, JSA, HVA, PCRA, ICRA, and HSI methodologies, reducing potential hazards in critical areas and operational, thereby safeguarding both staff and patients.
- Developed and updated comprehensive SOPs, HSE policies, and guidelines in alignment with the latest health and safety standards and government regulations, ensuring all hospital operations met stringent compliance benchmarks.
- Coordinated with government agencies to effectively monitor, address, and follow up on audit findings and recommendations, achieving notable improvements in HSE implementation and ensuring high standards of compliance throughout the hospital.
- Conducted periodic HSE reports (P2K3, UKL-UPL, SKL WASDAL DKI JAKARTA, SIMPEL & SIRAJA LIMBAH B3), ensuring adherence to HSE regulations.
- Founded & led the Green Hospital team, initiating and implementing programs to reduce electricity and water usage by 5%, control air emissions, and promote the greening of hospital facilities, contributing to substantial improvements in the hospital's environmental sustainability.
- Managed the hazardous waste, PPE usage, and pest management programs, achieving a complete resolution of pest issues and significantly improving hospital hygiene and safety, which led to a safer and more compliant healthcare environment.

CERTIFICATION

- **Manager of Hazardous Waste Management | Indonesian Professional Certification Authority (BNSP) | 2026**
- **Implementing & Internal Auditor Occupational Health & Safety Management System ISO 45001:2018 & Food Safety Management System and FSSC 22000 version 6.0 | Catalyst Consulting | 2024**
- **Coach Works Program for Improvement of QMS IATF 16949 & Internal Auditor | KEM Indonesia | 2023**
- **Integrated Management System & Internal Auditor ISO 9001:2015, 14001:2015 & 45001:2018 | SGS Indonesia | 2023**
- **Junior Occupational Safety & Health in Work Environment Expert (Ahli K3 Muda Lingkungan Kerja) | Kemnaker RI | 2021**
- **Elementary Industrial Hygiene Professional | Indonesian Professional Certification Authority (BNSP) | 2021**
